Dear Applicant:

On March 1, 2022, the New Hampshire Department of Environmental Services (NHDES) Wetlands Bureau reviewed the above-referenced Standard Dredge and Fill Wetlands Permit Application (Application). Pursuant to RSA 482-A:3, XIV(a)(2) and Rules Env-Wt 100 through 900, the NHDES Wetlands Bureau determined the following additional information is required to complete its evaluation of the Application:

- 1- In accordance with Env-Wt 306.06(a) and (b), the applicant must notify abutters prior to filing an application, and as required by RSA 482-A:3, I(d)(1), must provide notice to abutters in writing by certified mail or other delivery method that provides proof of receipt. The letters submitted indicated the abutter could review the application in the town of Barnstead, however the project is located in Moultonborough.
- 2- Please be advised due to comments by abutters and other individuals, the NHDES will be conducting a field inspection prior to issuing a decision on this application. This is standard procedure for applications that receive this level of comments. The department will schedule this inspection once a response to this letter has been received.

Please submit the required information as soon as practicable. Pursuant to RSA 482-A:3, XIV(a)(2), **the required information must be received by the NHDES Wetlands Bureau within 60 days of the date of this request (no later than April 29, 2022), or the Application will be denied.** Should additional time be necessary to submit the required information, an extension of the 60-day time period may be requested. Requests for additional time must be received prior to the deadline in order to be approved. In accordance with applicable statutes and regulations, the applicant is also expected to provide copies of the required information to the municipal clerk and all other interested parties.

Pursuant to RSA 482-A:3, XIV(a)(3), the NHDES Wetlands Bureau will approve or deny the Application within 30 days of receipt of all required information, or schedule a public hearing, if required by RSA 482-A or associated rules.
